

Gentlemen of the FCC: I am writing to urge you to reject the NAB's petition 04-160. I love my XM radio and I especially like being able to get instant traffic and weather reports as I drive into Houston, TX to work each day. I pay for XM radio for my car and in my home and it should not be up to the NAB to decide what I can get or not get for the money I pay each month for this fine radio service. Thank you for your consideration. Vicki Beaudro
